

JANSEN F. ORIBELLO

Software Engineer | Java Developer | Sapiens Developer | API Developer

09916443739 | oribellojansen.fuentes@gmail.com | linkedin.com/in/jansen-oribello | Biñan City, Laguna

PROFESSIONAL SUMMARY

Results-driven Java Developer with 5+ years of experience in the insurance and banking industries, specializing in the Sapiens IDIT platform, Spring Boot microservices, and RESTful API integration. Skilled in building and maintaining backend systems that connect core insurance platforms with external services, including Oracle PL/SQL triggers, Feign clients, and third-party integrations. Strong background in root cause analysis, and debugging complex data pipelines. Experienced in Agile/Scrum environments with cross-functional teams, and has mentored junior developers and interns through to full absorption as regular employees.

TECHNICAL SKILLS AND TOOLS

Languages: Java (Java 8-21), Core Java, PHP, C++, JSON, XML, SQL, ASP.NET, VB.NET, C#, HTML, CSS, JavaScript.

Developer Tools & IDEs: Git, GitHub, GitLab, Eclipse, IntelliJ IDEA, Visual Studio, Netbeans, Postman, Docker, Microservices, Jenkins, Bitbucket, Apache Tomcat, IReport/Crystal Reports, Maven, Apache HTTP Server, Toad, DBeaver.

Frameworks & Libraries: Spring Framework, Spring boot, Bootstrap, Tailwind, Hibernate, Struts, WebWork MVC, XWork, Java EE, Java GUI (Swing/AWT), JSP, Velocity Macros.

APIs, Middleware & Enterprise Technologies: RESTful APIs, Middleware, API Composition Engine (ACE), Sapiens IDIT Framework, Journey Forms, Sapiens Docs, Pioneer Core Systems, XML-based Configuration/Metadata.

Databases: MySQL, Microsoft SQL Server, MongoDB, Oracle Database.

DevOps, Cloud & Operating Systems: Microsoft Azure, Heroku, Windows, Linux/Unix, WSL, SSH, Linux/Unix Terminal, Windows Powershell, Shell Scripting.

Project Management & Collaboration: Jira, Atlassian, Confluence, Agile Scrum.

AI Tools: OpenAI, Claude AI, Microsoft Copilot, Ollama.

PROFESSIONAL WORK EXPERIENCE

Pioneer Life Inc. | Makati City, Metro Manila and Bonifacio Global City, Taguig City

Aug 2024 – Present

Senior Java Developer — Sapiens IDIT Platform

- Spearheaded backend enhancements and customizations on the Sapiens IDIT platform, directly supporting Pioneer Insurance's core insurance operations including policy management, claims, underwriting, and business rule configuration as part of the company's core system modernization initiative in the Philippines.
- Contributed to the successful migration of Pioneer Insurance's legacy core systems to the Sapiens IDIT platform by leading integration development, coordinating API testing, resolving defects, and supporting deployment activities helping the project stay on track.
- Built, maintained, and enhanced RESTful API services and integration components supporting end-to-end insurance processes, improving system reliability and accelerating turnaround time for business-critical transactions.
- Resolved 100+ JIRA tickets (QAs, Testing and End-Users environment), conducting root cause analysis and delivering fixes that improved platform stability and reduced recurring incidents.
- Collaborated directly with the Sapiens technical teams in India, coordinating on system maintenance, defect resolution, and platform and core upgrades.

- Maintained technical documentation including API specifications, system flow diagrams, and database mapping documents.
- Worked cross-functionally with QA, Business Analysts, and DevOps to ensure high-quality, on-time delivery of system enhancements.
- Supported Microsoft Azure cloud environments for deployment and infrastructure tasks.

SLI Consulting Inc. | Makati City, Metro Manila

Oct 2022 – Aug 2024

Mid Java Developer — Pioneer Life Inc. (Client)

- Mentored and guided Pioneer's intern developers as assigned team lead, providing hands-on technical coaching and helping them adapt to company standards and workflows. All mentees successfully completed their internship and were absorbed as Pioneer regular employees.
- Enhanced core Claims, Policy, and Cashiering modules, improving end-to-end processing workflows for Pioneer Life's operational teams.
- Developed and improved Recurring Payment and Auto-Debit systems with integrations to BDO, MBTC, BPI, and UnionBank, expanding payment channel coverage.
- Built a batch file upload feature for client matching and OR generation, reducing manual processing time for Policy Services staff.
- Designed and maintained Jasper Reports for official receipts, marketing collateral, and client-facing output documents.
- Implemented data extraction and file generation features supporting TXT, PDF, Excel, and CSV formats used in Policy Services operations.
- Enhanced Claims workflows including Enlistment, Registration, Approval/Denial, and Status Reversal modules, reducing processing errors.

Freelancing | Remote US Based *Aug 2021 – Aug 2022*

- Provisioned and managed Azure infrastructure, including virtual machines (VMs), resource groups, roles, and access permissions.
- Deployed, configured, and maintained Windows and Linux virtual machines, ensuring optimal performance and availability.
- Managed access control by granting and revoking permissions for Microsoft SQL Servers, Azure Resource Groups, and Azure Subscriptions.
- Performed operating system administration, troubleshooting, health checks, disk cleanup, and routine maintenance for Windows and Linux environments.
- Created and monitored backups for virtual machines, file storage, and Azure Blob Storage to ensure data protection and disaster recovery readiness.
- Monitored Microsoft SQL Server performance, analyzed system logs, and resolved infrastructure and application issues proactively.
- Troubleshot build and deployment issues to support development teams and maintain stable application environments.
- Managed Azure resources, including disk expansion, DTU scaling, Azure Resource Mover operations, and decommissioning of unused test environments.
- Ensured adherence to resource naming conventions, governance standards, and cloud infrastructure best practices.
- Monitored system alerts, infrastructure health, backups, and uptime to maintain service reliability and availability.
- Implemented new infrastructure services and maintained technical documentation for operational procedures and environment configurations.
- Provided technical support to developers and end users by diagnosing and resolving infrastructure-related issues.

EDUCATIONAL BACKGROUND

Cavite State University – Main Campus | Cavite, PhilippinesJul 2018 – Mar 2023

Bachelor of Science in Information Technology

- Graduated as an Academic Scholar, maintaining consistently high academic standing throughout the program.
- Developed strong foundations in software development, database systems, and systems analysis.
